## Listening to simultaneous language interpretation on your mobile phone or tablet

The screenshots below are from the mobile phone app. The tablet app looks mostly the same as the mobile phone app, with the exception that the icons are in different places and some menu options may be listed in a different order.

1. Download the Zoom app from the app store on your smartphone or tablet (e.g. Google Play, App Store, etc.) or Zoom at <https://zoom.us/download> (This step only needs to be done the first time you use Zoom on this device. For every meeting after that, begin with Step 2.)

3. Join the meeting using the Zoom desktop client.

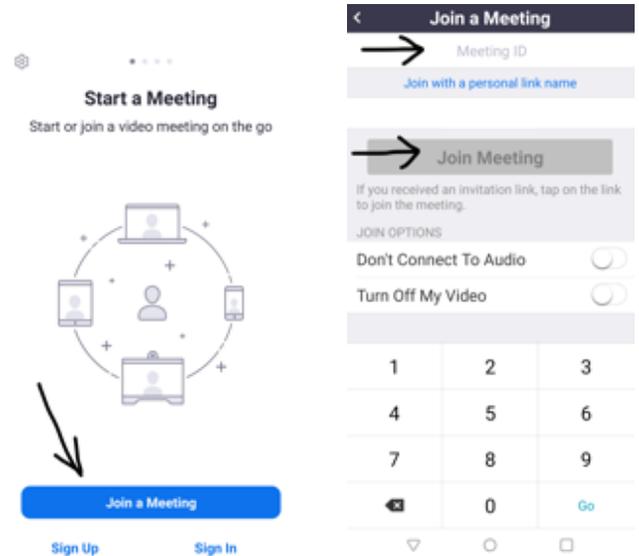

4. Click **Join with Computer Audio**.

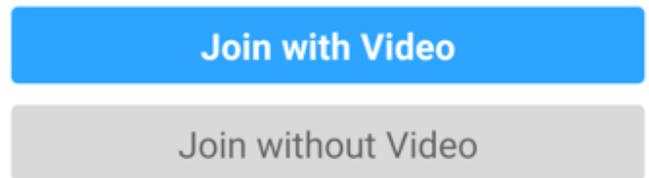

5. After the host activates Language Interpretation Mode, click **Interpretation**. 

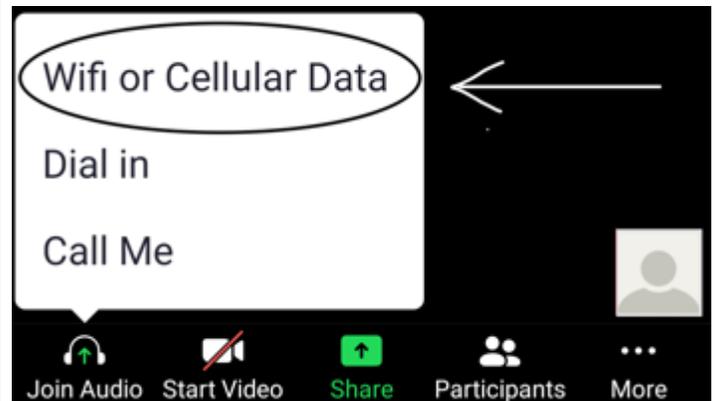

2. Click on the meeting link and then the Zoom icon  to open the app. Or open the Zoom app first, click on **Join a Meeting**, enter in the Meeting ID, and click on **Join Meeting**.

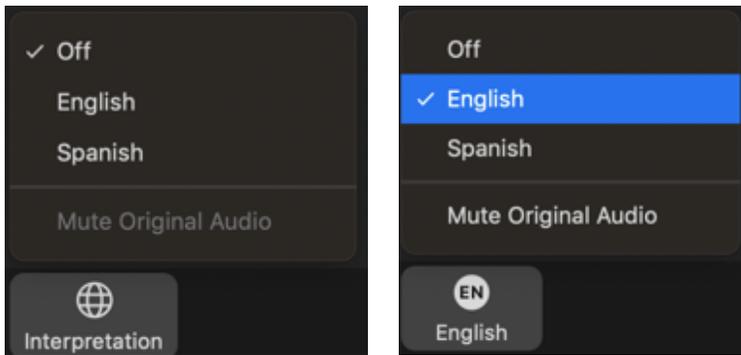

3. Choose whether to join with or without video.

4. Click **Wifi or Cellular Data** as the **Join Audio** option.

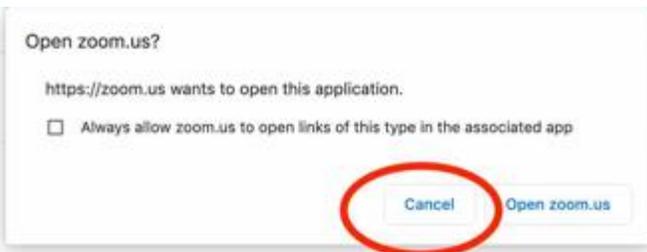

6. Click the language that you would like to hear.

7. (Optional) To only hear the interpreted language, click **Mute Original Audio**.

\*\*Chromebooks and certain other Linux operating systems will not show the option to select a language channel in the desktop client. Instead, if the meeting or webinar has a **Join from your browser** link, click on that when joining instead of on **Open zoom.us**. Otherwise, join from a different device.

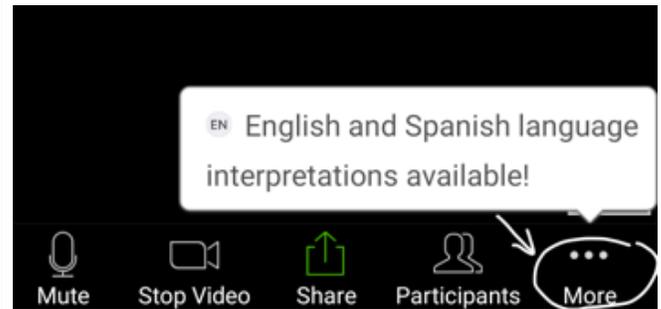

Click **Open zoom.us** on the dialog shown by your browser  
If you don't see a dialog, click **Launch Meeting** below

5. In your meeting controls, tap ... **More** <sup>More</sup> at the bottom right in the mobile phone app, and top right in the tablet app after the host activates Language Interpretation Mode. If the icon is not visible, tap the screen to make it appear.

6. Tap **Language Interpretation**.

7. Tap the language you would like to hear.

8. (Optional) Tap the toggle to **Mute Original Audio**.
